

ISRAEL JOURNAL OF MATHEMATICS

TABLE OF CONTENTS, VOLUME 111, 1999

CSÖRNYEI, M. <i>Aronszajn null and Gaussian null sets coincide</i>	191
ELLERS, E. W., N. GORDEEV AND M. HERZOG <i>Covering numbers for Chevalley groups</i>	339
GIORDANO, T., I. F. PUTNAM AND C. F. SKAU <i>Full groups of Cantor minimal systems</i>	285
GORDEEV, N. <i>See E. W. ELLERS</i>	
GRANERO, A. S., M. JIMÉNEZ SEVILLA AND J. P. MORENO <i>Geometry of Banach spaces with property β</i>	263
HERZOG, M. <i>See E. W. ELLERS</i>	
HJORTH, G. <i>Orbit cardinals: On the effective cardinalities arising as quotient spaces of the form X/G where G acts on a Polish space X</i>	221
IWANIK, A. AND J. SERAFIN <i>Code length between Markov processes</i>	29
JIMÉNEZ SEVILLA, M. <i>See A. S. GRANERO</i>	
KAPLAN, G. <i>Irreducible disconnected systems in groups</i>	203
KARPENKO, N. A. <i>Three theorems on common splitting fields of central simple algebras</i>	125
KOHLBERG, E. AND A. NEYMAN <i>A strong law of large numbers for nonexpansive vector-valued stochastic processes</i>	93
MARCUS, M. AND A. J. ZASLAVSKI <i>On a class of second order variational problems with constraints</i>	1
MORENO, J. P. <i>See A. S. GRANERO</i>	
MÜLLER, E. F. AND H.-J. SCHNEIDER <i>Quantum homogeneous spaces with faithfully flat module structures</i>	157
NEYMAN, A. <i>See E. KOHLBERG</i>	
PUTNAM, I. F. <i>See T. GIORDANO</i>	
RAN, Z. <i>Bend, break and count</i>	109
ROWEN, L. H. AND Y. SEGEV <i>The finite quotients of the multiplicative group of a division algebra of degree 3 are solvable</i>	373
RUDELSON, M. <i>Almost orthogonal submatrices of an orthogonal matrix</i>	143
SCHERBAK, I. AND A. SZPIRGLAS <i>Lagrange transformations and duality for corner and flag singularities</i>	77

SCHNEIDER, H.-J. See E. F. MÜLLER	
SEELINGER, G. F. <i>Brauer–Severi schemes of finitely generated algebras</i>	321
SEGEV, Y. See L. H. ROWEN	
SERAFIN, J. See A. IWANIK	
SKAU, C. F. See T. GIORDANO	
SZPIRGLAS, A. See I. SCHERBAK	
TALAGRAND, M. <i>Concentration and influences</i>	275
ZASLAVSKI, A. J. See M. MARCUS	
ŽIVALJEVIĆ, R. T. <i>The Tverberg–Vrećica problem and the combinatorial geometry on vector bundles</i>	53
