ISRAEL JOURNAL OF MATHEMATICS

TABLE OF CONTENTS, VOLUME 161, 2007

Acosta, M. D. and Sung Guen Kim *Denseness of holomorphic functions attaining their numerical radii* 373

Allen, P. *Almost every 2-SAT function is unate* 311

Anderson, G. W. *Digit patterns and the formal additive group* 125

Aschenbrenner, M. and H. Schoutens *Lefschetz extensions, tight closure, and big Cohen-Macaulay algebras* 221

Ceccherini-Silberstein, T. and M. Coornaert *Injective linear cellular automata and sofic groups* 1

Coornaert, M. *See* T. Ceccherini-Silberstein

Dilworth, S., E. Odell and B. Sari *Lattice structures and spreading models* 387

Fabińska, E. and M. Lassak *Reduced bodies in normed planes* 75

Greenberg, Matthew *Lifting modular symbols of non-critical slope* 141

Huang, Wen and Yingfei Yi *A local variational principle and it applications to equilibrium states* 29

Hug, D. and R. Schneider *A stability result for a volume ratio* 209

Kim, Sung Guen *See* M. D. Acosta

Klep, I. and M. Schweighofer *A Nichtnegativstellensatz for polynomials in noncommuting variables* 17

Kollár, J. *Algebraic varieties over PAC fields* 89

Laskowski, M. C. *A simpler axiomatization of the Shelah-Spencer almost sure theories* 157

Lassak, M. *See* E. Fabińska

Levcovitz , D., I. Vainsencher and F. Xavier *Enumeration of cones over cubic scrolls* 103

Narayanan, E. K., R. Rawat and S. K. Ray *Approximation by K-finite functions in L^p spaces* 187

Odell, E. *See* S. Dilworth

Urbański, M. and A. Zdunik *Instability of exponential Collet — Eckmann maps* 347

Rawat, R. *See* E. Narayanan

Ray, S. K. *See* E. Narayanan

Sari, B. *See* S. Dilworth

Schneider, R. *See* D. Hug

Schoutens, H. *See* M. Aschenbrenner

Schweighofer, M. *See* I. Klep

Vainsencher, I. *See* D. Levcovitz

Xavier, F. *See* D. Levcovitz

Yi, Yingfei *See* Wen Huang

Zdunik, A. *See* M. Urbański
